

Andrey Statkevskiy

Fullstack Developer

Brooklyn, NY | (929)461-3168 | andstatik@gmail.com | linkedin.com/in/andrey-statkevskiy | github.com/AndStatik

TECHNICAL SKILLS

Proficient: Javascript, Node/Express, React, Redux, Git, Github, HTML5, CSS3

Knowledgeable: PostgreSQL, Sequelize, React Native, Firebase/NoSQL, Heroku, Netlify

TECHNICAL PROJECTS

Personal Website | **Fullstack Developer** | [Website](#) | [Github](#)

11/2022 - Present

- Designed a schematic using **Figma** and built according to it using **Styled-Components**
- Constructed my personal website using latest **React v.18**
- Individually logged, task-managed, and pushed code to **GitHub** using **Git**
- Deployed the website with a custom domain via **Netlify**

Pokebay | **Fullstack Developer** | [Website](#) | [Github](#)

04/2022 - 09/2022

- Built a pokemon-themed e-commerce website as a member of a group
- Bridged front-end **React/Redux** components to back-end via **AJAX**, **ExpressJS**, **NodeJS**
- Deployed the website to **Heroku** and transferred database online
- Saturated the website with products, fetching content from PokeAPI

HiitCoin | **Fullstack Mobile Developer** | [Website](#) | [Github](#)

05/2022 - 06/2022

- As a member of a group, built a cross-platform mobile fitness tracker
- Used **Firebase** and concepts of **NoSQL** to provide a cloud-based back-end for the application, including authentication
- Constructed front-end components using **React Native** and Native-Base

OTHER EXPERIENCE

Internet Service Technician | **Virtalink** | Brooklyn, NY

09/2020 - 01/2021

- Installed modems, routers, and other hardware necessary to provide internet access
- Troubleshooted internet service using oscilloscope, tracing, and hand tools to establish or restore connection
- **Communicated technical information** and set appointments with clients

Low Voltage Electrician | **CViews** | Brooklyn, NY

09/2019 - 09/2020

- Mounted security surveillance systems, network systems, and sensors
- Participated in projects of various complexity, from private houses to large buildings
- Routed the internet-depending security systems' IP addresses to home networks
- Delivered products as a member of a brigade
- Built necessary hardware on site from scratch using hand tools

City University of New York | Brooklyn, NY

Engineering Researcher

08/2018 - 08/2019

- Collected, analyzed, and graphed data in regards to fiber optics signal quality
- Won prize at the CUNY Research Scholars Symposium for my group's optical couplers/attenuators system

Peer Mentor

01/2017 - 06/2019

- Assisted peers with college success strategies, technology-based concerns, personal issues, campus connections, and course registration
- Organized and facilitated on-campus events and workshops for **groups of 30+ students**
- Wrote a weekly newspaper about campus-engagement events

EDUCATION

Fullstack Academy Web Development Bootcamp

02/2022 - 06/2022

Software Engineering Certificate

Full-time, Full Stack Javascript Web Development Immersive

City University of New York

08/2016 - 01/2021

New York City College of Technology

Bachelor of Technology (B.T.) and Associate of Applied Science (A.A.S.) in Electrical Engineering with Honors
